

TEAMWORK/PEER EVALUATION

Team Members:

- Akshara Gopakumar
- Lydia Wang
- Mandar Bavdane

Team Member Responsibilities:**Initial Implementation:**

- Lydia worked on the DP algorithm and set up the initial structure.
- Akshara handled the cost function implementation.
- Mandar focused on reorganizing the code and formatting the output.

Report (Questions 1–10):

- Akshara worked on Questions 1–3 and put the final report together.
- Lydia worked on Questions 7–10 and helped proofread the report.
- Mandar worked on Questions 4–6 and final editing and minute detailing of the report.

Debugging and Testing:

- Akshara debugged the cost function and tested different cases.
- Lydia debugged the DP algorithm.
- Mandar handled compilation and final integration of the code.

Cooperation:

Everyone was cooperative and easy to work with. We communicated regularly and stayed on track with deadlines.

Effort Ratings (Total = 30):

- Akshara Gopakumar: 10
- Lydia Wang: 10
- Mandar Bavdane: 10

Additional Notes:

The team worked really well together. Tasks were split fairly and everyone contributed across different parts of the project. Communication was consistent and we were able to finish everything smoothly without major issues.
